## Leaving?

Who will leave early:

Name: **Mary Bishop**

Name: **Guests**

Name: **Angus Bishop**

Pets: **Django & Ella**

When will they go? (list the triggers for leaving)

**Leave the property when advised by the nearest ABC Radio station (<http://reception.abc.net.au/>) and/or check ABC Emergency on Twitter (<https://twitter.com/abcemergency>) and Facebook (<https://www.facebook.com/ABCemergency/>) and stay up to date with conditions.**

Where will people go?

**As advised by Emergency Services but the closest Neighbourhood Safer Places is Noosa District State High School - Oval, Tulip Street, Cooroy. Unless instructed otherwise, make your way to Maximilian Wharf via Teewah Beach Rd. (turn left out of property) or Frying Pan bay via Teewah Beach Road (turning right out of the property) and then Wallaby Track.**

What will they take?

**Torches, battery-powered radio or mobile phone, extra batteries, first aid kit, any medications you take, a really good supply of water (10 litres can last one person 3 days), food that won't perish quickly, for about 3 days (and a can opener if that food is in tins!), woolen blankets, pets**

## Tune in to warnings

Don't assume you'll receive a warning as a fire approaches and don't assume a fire crew will be available to assist every home. It's up to you to monitor conditions, know what the Fire Danger Rating is each day and to tune in to local media including radio, social media and websites.

## Complete your preparation for the approaching fire

Whether you are staying or leaving, there are some basic precautions you can take to help protect your property from a fire well before the fire front arrives.

- Move cars to a safe location
- Remove garden furniture, door mats and other items
- Close windows and doors and shut blinds
- Take down curtains and move furniture away from windows
- Seal gaps under doors and windows with wet towels
- Bring pets inside and restrain them (leash, cage, or secure room) and provide water
- Block downpipes (at the top) and fill gutters with water if possible
- Wet down the sides of buildings, decks and close shrubbery in the likely path of the bushfire
- Wet down fine fuels close to buildings
- Turn on garden sprinklers for 30 minutes before the bushfire arrives
- Fill containers with water - baths, sinks, buckets, wheelie bins
- Tune in to warnings to monitor local radio, websites or social media for updates
- Put on protective clothing
- Drink lots of water.

## What steps will you take as the fire front arrives?

As the fire front arrives:

- Disconnect hose and fittings and bring inside.
- Go inside for shelter
- Drink lots of water
- Shelter in your house on the opposite side of the approaching fire
- Patrol and check for embers inside, particularly in the roof space
- Check on family and pets
- Maintain a means of escape
- Continually monitor conditions.

## After the fire front has passed, check for small spot fires and burning embers:

- Inside the roof space
- Under floor boards
- Under the house space
- On verandahs and decks
- On window ledges and door sills
- In roof lines and gutters
- In garden beds and mulch
- In wood heaps
- Around outdoor furniture.
